

CALL FOR PAPERS

The 2026 IEEE International Conference on Power System Technology (PowerCon) will take place in Kota Kinabalu, Sabah, Malaysia, from 11–14 October 2026. This conference provides a leading platform for engineers and researchers to present their work and share ideas in the field of power and energy engineering with experts from around the world.

The program includes tutorials, plenary sessions, technical presentations, and a technical exhibition. Renowned speakers will deliver keynote speeches and invited talks on the latest developments in power and energy engineering. Participants will also have the chance to connect and exchange ideas with experts from various fields.

Authors are invited to submit original, unpublished English-language manuscripts. Authors are invited to submit original, unpublished English-language manuscripts. Papers that are accepted and presented at the conference will be submitted to IEEE Xplore and will be included in IEEE Xplore digital library (subject to the approval of the IEEE Technical Program Committee) and indexed in SCOPUS.

PROGRAM TRACKS:

Program tracks include, but are not limited to, the following topics:

1. New Technologies for Energy Transition
2. Electrification of Transport
3. Smart Energy Systems and AI Applications
4. Power System Operation and Planning
5. Energy Security and Resilience
6. Integration of Distributed Energy Resources
7. Power System Protection and Power Quality
8. High Voltage Engineering and Technology
9. Asset Management and Condition Monitoring
10. Power System Economics and Markets
11. Power Conversion and Control

11-14 October 2026
Kota Kinabalu, Sabah, Malaysia

IMPORTANT DATES

- 1-Oct-25 Call for Papers
- 1-April-26 Paper Submission
- 1-June-26 Acceptance Notification
- 1-July-26 Early Bird Registration
- 1-Aug-26 Normal Registration
- 1-Aug-26 Final Manuscript
- 11-14 Oct-26 Conference dates
